

Living with Neighborhood Cats

What should you do about feral and free-roaming cats in your area, and how can you speak to your community about managing them? Download these guidelines for living with feral and community cats.

What is a feral cat? What should you do if you find one in your yard? In many communities, a trip to the shelter will mean almost certain euthanasia for a feral cat, unless you're lucky enough to live somewhere with a trap/neuter/return program. This information sheet provides guidelines for living with feral and community cats instead - whether you'd rather not have them in your yard, or whether you just want to help.
