

# PacVet 2015

This page links to presentations given by Drs. Hurley and Aziz at the 2015 Pacific Veterinary Conference. Topics include etiology, diagnosis, treatment and prevention of both feline and canine infectious upper respiratory disease.

This year Drs. Hurley and Aziz presented in the first ever Shelter Medicine Track at PacVet! The Pacific Veterinary Conference (aka PacVet) brings great continuing education to a world-class vacation destination – Long Beach, CA! The four day conference gives participants the opportunity to earn CE in a variety of areas – and we're so excited to have Shelter Medicine included! Click below to see Drs. Hurley and Aziz's presentations on etiology, diagnosis, treatment and prevention of both feline and canine infectious upper respiratory disease.

## **Presentations by Dr. Kate Hurley:**

1. [New Strategies for Community Cats](#)
